

AUTO SERVICE

Fuel Growth and Customer Loyalty with Integrated Solutions.

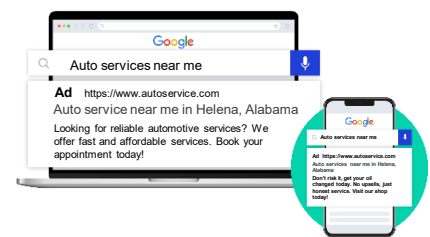

Our Approach

- We prioritize what we know about your audience and goals to curate fully-integrated media campaigns.
- We harness the power of analytics to develop data-driven strategies that reach the right customers at the right time.

Activation Opportunities

- Drive awareness with **Connected TV, Digital Out-Of-Home, and Digital Display** with targeted audiences within the radius you're most likely to acquire new customers.
- **Shared Mail** inserts can help to increase consideration and response within the communities that matter most.
- Use **Paid Social** to reach highly targeted audiences, amplify offers and promotions, and grow your local following.
- Use **Trigger Marketing** tactics to deliver relevant offers during key life events - such as people who have recently moved into a new home and are more likely to need a new Auto Service provider.
- Use **Search Engine Marketing** to reach audiences searching for specific keywords, like 'auto service near me,' or convert them later with **Display Ad Keyword Retargeting**.

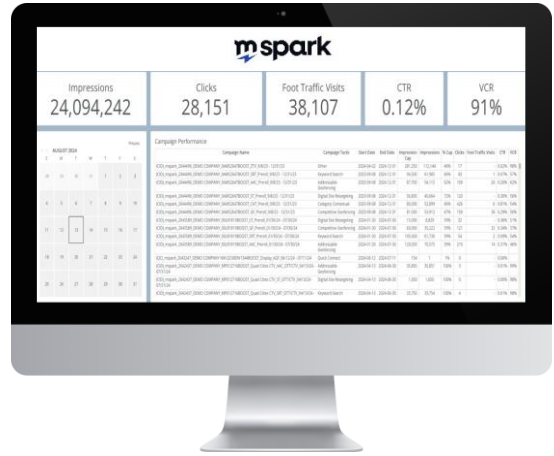

Let's Ignite Results for Your Business.

Actionable Results.

Our campaign reporting brings your strategic story to life.

- 01. Continuous Improvement:** We analyze performance across media, audiences, and geographies to enhance it further.
- 02. Collaborative Data Sharing:** Sharing data, like CRM, store performance, or redemption data, helps us understand how your campaigns are performing.
- 03. Enriched Insights:** By allowing us to enrich your data with our resources, we uncover who's engaging with your campaigns, who isn't, and how to refine our strategies for greater impact.

ABOUT US:

Mspark is a results-driven media marketing partner built for accountability. Our teams plan, activate, and measure fully-integrated media campaigns – anchoring strategy and audience intelligence directly to performance through client-first service.
